

ISO 14001: Environmental Management System

Integrigo (Pty) Ltd is ISO 14001:2015 certified, demonstrating its commitment to environmental responsibility and sustainable facilities management practices in South Africa. This certification ensures that the company operates under internationally recognized standards for environmental management systems.

What ISO 14001 Means for Integrigo

- ❖ **ISO 14001:2015** is the global standard for Environmental Management Systems (EMS).
- ❖ It requires organizations to:
 - Identify and manage environmental risks.
 - Reduce waste and pollution.
 - Comply with environmental laws and regulations.
 - Continuously improve sustainability performance.

Integrigo's Certification Highlights

- ❖ **Certification Standard:** ISO 14001:2015
- ❖ **Scope of Certification:** Environmental management across facilities management services, including building maintenance and construction, cleaning services, Landscaping and garden maintenance.
- ❖ **Commitment:** Ensures services are delivered with minimal environmental impact, aligning with South Africa's sustainability goals.
- ❖ **Benefits for Clients:**
 - Assurance of eco-friendly operations.
 - Compliance with POPIA and environmental legislation.
 - Reduced environmental footprint in facilities management projects.

Why This Matters for Clients

- ❖ **Trust & Compliance:** Clients can be confident that Integrigo meets international environmental standards.

- ❖ **Sustainability:** Projects are managed with a focus on reducing energy use, waste, and emissions.
- ❖ **Competitive Advantage:** ISO 14001 certification strengthens Integrigo's reputation as a responsible partner for both private and public sector clients.
